

Artistic Steel Ceilings

THE CANTON STEEL CEILING COMPANY
NEW YORK, N. Y.

IN presenting this Catalog, we appreciate that the public is familiar with the superior merits of our Steel Ceilings. We wonder, however, whether they fully consider the advantage of Steel Fireproof Ceilings and Side Walls over other material.

Steel Ceilings will not crack or fall. They are sanitary and can be cleaned without injury with soap and water. They prove an economical and ornamental interior, that will remain permanent.

This is an age of Steel and prospective builders are awakening to the realization that Steel Products are the prime factors in building construction. Our line includes suitable designs for any style of architecture, and we will be pleased to quote prices upon request.

THE CANTON STEEL CEILING COMPANY

"Quality Products"
